

DERMAWHITE® WF C BC10046

Actives

## DERMAWHITE® WF C BC10046

### The power of nature to illuminate your skin

All over the world, a radiant complexion is associated with beauty. In populations with darker skin, fairer complexions are often considered more attractive. Sadly, consumers in some regions have resorted to whitening products that can damage the skin over time. Quickly effective, skin-friendly and priced to be competitive in emerging countries, Dermawhite® WF is a scientifically proven and safe solution that brightens the skin while maintaining its healthy functions. Based on extracts of white blossoms, the active noticeably brightens the complexion yet fully respects the skin's natural characteristics and health. It is ideal for developing innovative skincare products for the world's fastest-growing markets.

#### Product Description

---

Skin whitening combination of extracts of white blooming plants

#### Consumer Benefits

---

Whitening / Brightening

#### Properties

---

Inhibition of melanin production. Significant reduction of pigmentation within two weeks. Tested on Asian and African volunteers.

DERMAWHITE® WF C BC10046

Actives

## In Vivo

Long-lasting whitening

Quick whitening

## In Vitro / In Tubo

Reduction of melanin synthesis

## Clinical Study Results

Age of Volunteers: Volunteer panel >30

Results Time Scale: 8 weeks, 12 weeks, 14 days

Tested Skin Area: Face

## Target Molecules in the Skin

Epidermis components

## Nature of Active

Active Substance / Technology: Plant Extract

Compliance: Listed in IECIC

Geography: Asia, South America, India

Origin: Edible raw material basis, Flowers, Traditional Medicine, Trees, Ayurveda, Fruits

Special Formulation Features: Colorless, High pH tolerant

## Preservatives

None

## Solubility

Water-soluble

## Recommended dose of use

1-2%

## INCI

Water (and) Tartaric Acid (and) Disodium EDTA (and) Sodium Sulfite (and) Sodium Metabisulfite (and) Glycerin (and) Butylene Glycol (and) Saxifraga Sarmentosa Extract (and) Carica Papaya (Papaya) Fruit Extract (and) Psidium Guajava (Guava) Fruit Extract
