

LIPOFRUCTYL® ARGAN LS 9779

Actives

LIPOFRUCTYL® ARGAN LS 9779

All of the Moroccan sun in a precious oil

Argan oil, traditional beauty secret of the Moroccan women.
Prepared by a **100%** female cooperative network, working for the preservation of the argania forest and the improvement of social status of Moroccan women.

Product Description

Sustainable sourced precious Argan oil

Consumer Benefits

Moisturization

Properties

Oil derived from hand-picked kernels, manual crushing and mechanical extraction. Argan oil has been used for centuries by the Moroccan Berber women in order to beautify their skin and hair. Other parts of the argan tree, non-valorized for cosmetic applications before, have been used to develop several additional products of our argan range: Argassential® and Arganyl®.

Ex Vivo

Moisturisation of horny layer

Target Molecules in the Skin

Horny layer components

Nature of Active

Active Substance / Technology: Natural Oil

Compliance: Listed in IECIC

Tested Skin Area: Cosmos certified

Geography: Africa

Origin: Sustainable sourced, Edible raw material basis, Trees, Fruits

Special Formulation Features: Cation compatible, Lipo-soluble

Preservatives

None

Solubility

Oil-soluble

Recommended dose of use

0.1-3%

INCI

Argania Spinosa Kernel Oil

Form of Delivery

Liquid
