Protection effect on cellular membranes

On Hair

Reduction of color fading by washing/UV

Combability improvement

Protection of hair structure during perm

Clinical Study Results

Results Time Scale: 3 weeks

Tested Skin Area: Arms, Legs

Target Molecules in the Skin

Epidermis components

Horny layer components

Nature of Active

Active Substance / Technology: Ceramide

Compliance: Listed in IECIC

Special Formulation Features: Cation compatible, Lipo-soluble

Preservatives

None

Solubility

Oil-soluble

Recommended dose of use

1-2%

INCI

Octyldodecanol (and) Hydrogenated Coco-Glycerides (and) Helianthus Annuus (Sunflower) Seed Extract

Form of Delivery

Liquid
