## General characterisation

### **Chemical description**

Sodium C12-18 alkyl sulfate

## Labeling information

### **INCI name(s)**

Sodium Coco-Sulfate

## Active ingredient information

<b>Ingredient</b>	<b>CASR-No.</b>	<b>Remark</b>
Fatty alcohol sulfate C12-18, sodium salt	68955-19-1

## Product properties

### **Appearance**

White granules

### **Example of use**

Home Care/I&I Applications:

The manufacture of Sulfopon® 1216 G is based on fluidized bed granulation and the resulting granule structure allows the convenient addition of solid FAS into surfactant preparations, laundry detergents, toilet blocks and cleaning agents, based on solid and powdered recipes.

Sulfopon® 1216 G is not only suitable for home care applications, but also for formulations used in the industrial and institutional sector and - personal care applications

The main product characteristics of Sulfopon® 1216 G can be described as follows:

- convenient handling
- good flowability
- good storage stability
- high bulk density
- good detergency

Personal Care Applications:

Sulfopon® 1216 G is also suited as a basic surfactant in cosmetic cleansing preparations such as shampoos, shower gels and bath preparations.

Additional Information on the processing of Sulfopon® 1216 G in cosmetic cleansing formulations are available.

## **Stabilising additives / Auxiliaries**

The Product is unpreserved
